FULL-STACK SOFTWARE DEVELOPER

Innovative & Security-Focused Developer | .NET Core | Laravel | Azure Cloud | API Development | C# | Linux | Python | Django

PROFESSIONAL SUMMARY

Experienced Full-Stack Developer with over 3 years of hands-on experience in designing, developing, and deploying scalable web applications. Proficient in server-side technologies including C#, Laravel, and ASP.NET Core, as well as front-end frameworks using HTML, CSS, and JavaScript. Skilled in cloud deployment using Microsoft Azure, and experienced in building secure, high-performance RESTful and GraphQL APIs. Strong background in implementing network security solutions such as Sophos Firewall and VLANs. Passionate about Agile methodologies, CI/CD pipelines, and continuous integration for rapid, reliable delivery.

TECHNICAL SKILLS

- Backend Development: C# & ASP.NET Core, PHP & Laravel, GraphQL API Development, Python.
- Frontend Development: HTML5, CSS3, JavaScript (ES6+)
- DevOps & Cloud: Azure Cloud Deployment, CI/CD Automation, Firewall & Network Security.
- Methodologies & Tools: Agile (Scrum/Kanban), Git & GitHub, Postman, Docker.

PROFESSIONAL EXPERIENCE

Software Developer

Reformed Church University, Masvingo, Zimbabwe | Apr 2023 – Present

- Developed and deployed Laravel-based ERP System, Student Portal, and Online Application System, improving process efficiency and accessibility by over 30%.
- Designed and maintained RESTful APIs and GraphQL endpoints, optimizing system integration and improving API response performance by 25%.
- Engineered responsive and dynamic front-end interfaces using HTML, CSS, and JavaScript, enhancing user experience across platforms.
- Strengthened institutional cybersecurity by configuring Sophos Firewall, implementing SSL, and setting up VLANs,
- Led system design, implementation, and support processes for core platforms, gaining deep insight into academic and administrative software needs in a university environment.

Backend Software Developer

Property 365 Solutions, Johannesburg, South Africa | Jul 2021 – Jun 2022

- Built ASP.NET Core RESTful & GraphQL APIs, improving data retrieval speed by 25%.
- Developed Azure-hosted worker services (Service Bus, Azure Queues), ensuring reliable asynchronous processing.
- Automated deployments using Azure Pipelines (Kubernetes, App Services), reducing manual errors by 50%.

EDUCATION

- **Bachelor's Degree in Computer Science (Class 2.1)**
Great Zimbabwe University, Masvingo | Completed: 2019
Vice Chancellor's Award (Top-Performing Student)
- **Diploma in Information Technology**
Masvingo Polytechnic College: 2014
- **Certificate in Information Technology**
Masvingo Polytechnic College: 2011
- **8 O'level Pass including Maths, English and Science**
Mazare Secondary School: 2010

CERTIFICATIONS

- **Foundations of User Experience (UX) Design – Google (Apr 2022)**

KEY ACHIEVEMENTS

- Led the design, development, and maintenance of core university systems including the University ERP, Online Admissions Application, and Student Portal, ensuring secure, user-friendly, and scalable solutions tailored to institutional needs.
- Deployed over four production-grade web APIs on Azure Cloud, enhancing system integration and remote accessibility.
- Improved API performance by applying RESTful best practices and introducing GraphQL where applicable.
- Enhanced network security by configuring Sophos Firewall and implementing VLANs, strengthening internal infrastructure at Reformed Church University.
- Gained a deep understanding of university-specific software workflows, enabling efficient automation of administrative and academic processes.
